

SCHOLARSHIPS

without the struggle.

Facing Scholarship Program Challenges?

- Administrative chaos has left you exhausted. Your program has grown without a clear structure, forcing you into ad hoc solutions to put out fires.
- Your program is a financial drain, and you're struggling to make a case for more investment. You can't see a clear path to growing sustainably.
- You question whether your scholarships are truly serving students, or worse, you feel anxious that your current process is causing harm.
- Your reputation is a concern. Donors aren't satisfied, and you're worried about how their experience is impacting your organization's relationships.

Students First Consulting: The Scholarship Experts

We're the only consulting firm focused exclusively on scholarships. It's what we do day in and day out. Our solutions are strategic, student-centric, and designed to transform your program.

With over 34 years' combined experience, our team has helped over 50 client organizations. We work in partnership with clients to co-design a program that delivers the impact they want. This collaborative approach is how we achieve tangible results that are both effective and sustainable.

What We Deliver

- A program that practically runs itself.
- Delighted donors eager to give more.
- A confident team you can trust completely.
- Clear processes everyone can follow.
- Students who receive funds quickly and reliably.
- Peace of mind and joy in your work.

Program Transformation

Our Signature Solution

This service is for organizations that are ready to go beyond temporary fixes and address the root causes of their challenges. We understand the temptation of quick solutions, but in large, well-established programs, those bandaids often lead to more complex problems down the road. Instead, we take a comprehensive approach designed to drive lasting, significant change across your entire scholarship program.

This signature solution is effective for organizations of all sizes but is especially impactful for organizations with large, well-established, and often disjointed scholarship programs. It's designed for those ready to move from a "have it your way" approach to one that is more strategic and intentional.

This comprehensive service typically includes a combination of key services like:

- Assessing Your Community's Needs
- Developing Your Program's Strategy
- Redesigning Your Existing Program or Creating a New Scholarship Program

It's frequently customized with services such as a fund audit, donor engagement plans, and technology tool evaluation.

The typical engagement timeline is 3-6 months, with pricing dependent on your program size and the services needed.

Core Outcomes

- A revitalized program strategy that aligns with your mission and maximizes your impact.
- Optimized processes to prepare you for future growth and sustainability.
- Stronger relationships with donors, supported by messaging that showcases the power of scholarships to the community.
- A more positive, empowering, and outcomes-driven experience.

What Our Clients Say

“*They've been instrumental in guiding our program forward in a way that's sustainable for our team.*”
